

c) Air quality (Qualité de l'air)

<input type="checkbox"/> Improved (amélioré) <input type="checkbox"/> Worsened (aggravé) <input type="checkbox"/> No impact (Pas d'impact) <input checked="" type="checkbox"/> don't know (Je ne sais pas)	Explain you answer (Expliquez votre réponse)
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------

d) Water quality and quantity (Qualité de l'eau et la quantité)

<input checked="" type="checkbox"/> Improved (amélioré) <input type="checkbox"/> Worsened (aggravé) <input type="checkbox"/> No impact (Pas d'impact) <input type="checkbox"/> don't know (Je ne sais pas)	Explain you answer (Expliquez votre réponse) this section will be improved because it's serious case
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------

e) Quality of water and quantity (qualité de l'eau et la quantité)

<input type="checkbox"/> Improved (amélioré) <input type="checkbox"/> Worsened (aggravé) <input type="checkbox"/> No impact (Pas d'impact) <input type="checkbox"/> don't know (Je ne sais pas)	Explain you answer (Expliquez votre réponse)
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------

7. Other pollutants (d'Autre polluants)

<input checked="" type="checkbox"/> Improved (amélioré) <input type="checkbox"/> Worsened (aggravé) <input type="checkbox"/> No impact (Pas d'impact) <input type="checkbox"/> don't know (Je ne sais pas)	Explain you answer (Expliquez votre réponse) Improve more project to the collect of garbage, or firing
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------

Other (if any): (le cas échéant)

**Projet Gaia < fourneaux alimentés > Programme d'Activités (PdA) Djibouti
Réunion de Consultation des Intervenants Locaux**

Les Acacias Hotel, Djibouti 31/08/2015

Evaluation Form (formulaire d'évaluation)

Name (Nom):	BEATA BIEIA
Organization (Organization):	CARITAS SOMALIA & CARITAS DJIBOUTI
Email (E-mail)	
Phone number (numéro de téléphone)	
Date (Date):	31.08.2015

1. What is your impression of the meeting? (Quelle est votre impression de la réunion?)

Interesting, it seems that the project may be of benefit but still needs more data to be elaborated, (its completeness to kerosene, price of ethanol & stoves, usefulness for refugees (strong winds), better (potentially) solar opportunities

2. What do you like about the project? (Qu'est-ce que vous aimez à propos de la réunion)

It gives an option to choose for people living in cities and free stoves & ethanol for refugees.

3. What do you not like about the project? (Qu'est-ce que vous n'aimez pas à propos de la réunion)

- Solar energy would be a better ~~to~~ alternative if possible to implement on a similar basis.
- lack of "real" tests of stoves in Djibouti refugee camps (strong winds, security) - ~~the~~ need to ~~import~~ (dependency) both stoves & ethanol

4. Are there any other ongoing or planned activities that you can think of that can obstruct the project? (Y a-t-il d'autres activités en cours ou prévues que vous pouvez penser qui peuvent entraver le projet?)

- it may take too long to implement to benefit refugee camps.
- the change of prices of kerosene & ethanol

5. Please tick where applicable on how the project will be of influence for the following socioeconomic and technological indicators: (Veuillez cocher le cas échéant sur la façon dont le projet sera d'influence pour les indicateurs socio-économiques et technologiques suivants)

a) Access to affordable and clean energy services: (l'accès à une énergie abordable)

<input checked="" type="checkbox"/> Improved (amélioré) <input type="checkbox"/> Worsened (aggravé) <input type="checkbox"/> No impact (Pas d'impact) <input checked="" type="checkbox"/> don't know (Je ne sais pas)	<p>Explain your answer (Expliquez votre réponse)</p> <p>see point c) below Depend on the price of kerosene and ethanol. It may be good alternative to choose, yet.</p>
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

b) Quantitative employment and income generation: (Création d'emplois quantitative et la génération de revenus)

<input type="checkbox"/> Improved (amélioré) <input type="checkbox"/> Worsened (aggravé) <input type="checkbox"/> No impact (Pas d'impact) <input checked="" type="checkbox"/> don't know (Je ne sais pas)	<p>Explain your answer (Expliquez votre réponse)</p> <p>Maybe some additional employment for distribution of ethanol but may be at cost of lower distribution & production of kerosene. Both needs to be estimated, to answer this question</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

c) Livelihood of the poor, e.g. saving money previously used for purchase of charcoal or kerosene (Moyens de subsistance des pauvres par exemple, économiser de l'argent déjà utilisé pour l'achat de charbon de bois ou le kérosène)

<input checked="" type="checkbox"/> Improved (amélioré) <input type="checkbox"/> Worsened (aggravé) <input type="checkbox"/> No impact (Pas d'impact) <input checked="" type="checkbox"/> don't know (Je ne sais pas)	<p>Explain your answer (Expliquez votre réponse)</p> <p>It seems from the discussions, that the price of kerosene may be competitive with ethanol, taking also into account custom in Djibouti of usage of kerosene. Still free distribution of stoves and ethanol to the refugees seems seem to improve their situation. Still the implementation of the project would need to be fast but the implementation timetable seems to be long, so hard to say the actual impact on refugees. But, assuming it could be made fast, the livelihood of the poor would improve (e.g. ethanol)</p>
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

d) Attract more investors: (Attirer plus d'investisseurs:)

<input type="checkbox"/> Improved (amélioré) <input type="checkbox"/> Worsened (aggravé) <input checked="" type="checkbox"/> No impact (Pas d'impact) <input type="checkbox"/> don't know (Je ne sais pas)	<p>Explain your answer (Expliquez votre réponse)</p> <p>As the product seems simple and needs 1 input that is ethanol, it is hard for me to think of attracting more investors, just unless the scale of usage of stoves is such that it justifies have factory of stoves in Djibouti</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

e) Technology transfer and technological self-reliance (e.g. knowing more about ethanol cookstove (*Le transfert de technologie et l'autonomie technologique (par exemple, en savoir plus sur l'éthanol cuisinière)*)

<input type="checkbox"/> Improved (<i>amélioré</i>) <input checked="" type="checkbox"/> Worsened (<i>aggravé</i>) <input type="checkbox"/> No impact (<i>Pas d'impact</i>) <input type="checkbox"/> don't know (<i>Je ne sais pas</i>)	<p>Explain you answer (<i>Expliquez votre réponse</i>)</p> <p>As stores are imported from South Africa, and ethanol from Ethiopia, this may make the country dependent. Still it would require comparison with currently used methods of cooking used.</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

f) Human and institutional capacity (*Capacités humaines et institutionnelles*)

<input type="checkbox"/> Improved (<i>amélioré</i>) <input type="checkbox"/> Worsened (<i>aggravé</i>) <input type="checkbox"/> No impact (<i>Pas d'impact</i>) <input checked="" type="checkbox"/> don't know (<i>Je ne sais pas</i>)	<p>Explain you answer (<i>Expliquez votre réponse</i>)</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------

6. Please tick where applicable on how the project will be of influence for the following environmental indicators: (*Veuillez cocher le cas échéant sur la façon dont le projet sera d'influence les indicateurs environnementaux suivants*)

a) Effects on biodiversity: (*Les effets sur la biodiversité*)

<input type="checkbox"/> Improved (<i>amélioré</i>) <input type="checkbox"/> Worsened (<i>aggravé</i>) <input type="checkbox"/> No impact (<i>Pas d'impact</i>) <input type="checkbox"/> don't know (<i>Je ne sais pas</i>)	<p>Explain you answer (<i>Expliquez votre réponse</i>)</p>
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------

b) Soil condition (*l'état du sol*)

<input checked="" type="checkbox"/> Improved (<i>amélioré</i>) <input type="checkbox"/> Worsened (<i>aggravé</i>) <input type="checkbox"/> No impact (<i>Pas d'impact</i>) <input type="checkbox"/> don't know (<i>Je ne sais pas</i>)	<p>Explain you answer (<i>Expliquez votre réponse</i>)</p> <p>From presented data it seems that the deforestation would be lower</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------

c) Air quality (Qualité de l'air)

<input checked="" type="checkbox"/> Improved (amélioré) <input type="checkbox"/> Worsened (aggravé) <input type="checkbox"/> No impact (Pas d'impact) <input checked="" type="checkbox"/> don't know (Je ne sais pas)	<p>Explain you answer (Expliquez votre réponse)</p> <p>it seems for the information provided that ethanol would reduce pollution to the air. Still additionally the effect of additional pollution of sugar by product production & transport pollution should be considered, and total effect estimated</p>
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

d) Water quality and quantity (Qualité de l'eau et la quantité)

<input type="checkbox"/> Improved (amélioré) <input checked="" type="checkbox"/> Worsened (aggravé) <input type="checkbox"/> No impact (Pas d'impact) <input type="checkbox"/> don't know (Je ne sais pas)	<p>Explain you answer (Expliquez votre réponse)</p> <p>It seems that export export impact would be made for South Africa, so additional ships could come to Djibouti port.</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

e) Quality of water and quantity (qualité de l'eau et la quantité)

<input type="checkbox"/> Improved (amélioré) <input type="checkbox"/> Worsened (aggravé) <input type="checkbox"/> No impact (Pas d'impact) <input type="checkbox"/> don't know (Je ne sais pas)	<p>Explain you answer (Expliquez votre réponse)</p> <p>as above</p>
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------

7. Other pollutants (d'Autre polluants)

<input type="checkbox"/> Improved (amélioré) <input type="checkbox"/> Worsened (aggravé) <input type="checkbox"/> No impact (Pas d'impact) <input type="checkbox"/> don't know (Je ne sais pas)	<p>Explain you answer (Expliquez votre réponse)</p>
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------
